DESCRIPTIONS

The Professor and The Mad Man - Professor James Murray begins work compiling words for the first edition of the Oxford English Dictionary in the mid 19th century, and receives over 10,000 entries from a patient at Broadmoor Criminal Lunatic Asylum, Dr. William Minor.

La La Land - Mia, an aspiring actress, serves lattes to movie stars in between auditions and Sebastian, a jazz musician, scrapes by playing cocktail party gigs in dingy bars, but as success mounts they are faced with decisions that begin to fray the fragile fabric of their love affair, and the dreams they worked so hard to maintain in each other threaten to rip them apart.

A Mighty Wind - In "A Mighty Wind", director Christopher Guest reunites the team from "Best In Show" and "Waiting for Guffman" to tell the story of 60's-era folk musicians, who inspired by the death of their former manager, get back on the stage for one concert in New York City's Town Hall.
